

Learning, improvement and innovation

Quality statement

We focus on continuous learning, innovation and improvement across our organisation and the local system. We encourage creative ways of delivering equality of experience, outcome and quality of life for people. We actively contribute to safe, effective practice and research.

Summary

- Learning from people's feedback about their experiences of care and support, and feedback from staff and partners is embedded throughout the local authority's work and it informs strategy, improvement activity and decision making at all levels. Coproduction is embedded throughout the local authority's work.
- There is an inclusive and positive culture of continuous learning and improvement. The local authority has strong external relationships that support improvement and innovation. Staff and leaders engage with external work, including research, and embed evidence-based practice in the organisation.
- There are processes to ensure that learning happens when things go wrong, and from examples of good practice. Leaders encourage reflection and collective problem-solving.
