

# Enforcement decision tree

Our enforcement decision tree describes the process that guides how we make decisions about selecting and using appropriate enforcement powers.

## Updates to this guidance in 2023

Since we published this guidance in 2017, we have:

- Improved the language to be more accessible, using clear, plain English.
- Replaced references to 'inspectors' with 'colleagues', to align with our new operational functions.
- Replaced the reference to 'sector' enforcement priorities with 'enforcement priorities' more generally.
